

LANDSCAPES FOR LIFE

With more than 40 years of combined experience, owners Hugh Morton and Paul Fraynd bring Omaha a passionate approach to full service landscaping.

Landscape is our life. We wake up every day with the hope that we can allow others to enjoy the outdoors as much as we do.

At Sun Valley Landscaping we do everything we can to offer our clients a memorable experience with our company. From your initial contact to a job well done, we have structured our business around you, your experience and your interaction with your very own piece of the outdoors.

DESIGNING YOUR DREAM

Our design process starts with an understanding of your site and your desired use of the space. You and your designer will flush out the style, form and function that will best make your dream a reality. We will pay attention to the details—color, texture and structure—to create a beautiful, balanced space that will stand the test of time.

You'll receive detailed, hand-drawn plans, photos and descriptions of all suggested foliage, plants and trees.

We always clean up after ourselves and leave your space ready to use.

PERFECT INSTALLATIONS

Imagine coming home from work to a completely transformed space. Our installation crews are filled with dedicated craftsmen who are trained and certified in industry best practices and The Sun Valley Way. We will efficiently manage the entire project and provide you with frequent progress updates. Our crews will greet you by name and are always available for your questions along the way.

Proper maintenance extends the life of any landscape.
