

RESIDENTIAL LANDSCAPE MAINTENANCE

Lawn Maintenance

Fertilizer+ Package

Everything your lawn needs to thrive and resist stress. Appropriate nutrients applied 6 times per year, including an all-organic component, Grub Control, Fall Aeration, and Over-seeding. Any weeds present are treated at each visit

Weekly Mowing

Professional mowing, trimming, edging, and blowing of hard surfaces to keep the lawn manicured each week.

Spring Lawn Cleanup

Clean up winter debris in the lawn, initial edging along concrete surfaces to start the year out with a clean cut.

Fall Leaf and Debris Lawn Cleanups

Leaves will be mulched, bagged, and removed 2x in November to leave the lawn clean before winter.

Perimeter Pest Control

3 applications around your home to keep common household pests outside. Most properties are just \$25 for each application

** This program is an add-on to our Fert+ Program and is not sold separately*

Irrigation Maintenance

This program allows you the peace of mind that we will take care of your irrigation system throughout the growing season. **Activation** takes care of getting the system up and running, checking every head for proper coverage. Any repairs needed would be taken care of at this time, and invoiced separately. **Summer check** is a mid-season check as we approach the hot and dry season to make sure heads are still providing proper coverage as well as adjusting the clock settings. **Winterization** is scheduled before a deep frost to blow out system, protecting it from freezing damage.

Landscape Bed Maintenance

Our bed maintenance programs are tailored specifically for your home and your needs. All of our landscape detail visits include routine visits to pull weeds, tidy up beds and clean-up hard surfaces, remove sticks and debris, skillful pruning in the spring and fall of plants and shrubs, deadhead flowers as needed, pulling and spraying weeds as needed. Hard surfaces blown clean to leave the property tidy after every visit.

Spring Cleanup + Fresh Mulch

Professional gardening to clean up winter debris, prune back ornamental grasses and perennials left up over winter, and re-establish crisp edges around mulch areas. We apply granular pre-emergent to the mulch beds, top-dress with 1" layer of fresh premium mulch, and apply balanced fertilizer to the ornamental shrubs and perennials.

Landscape Detail Visits

Hydrangea Package

This is our top-of-the-line, you do no work package. It includes bi-weekly visits, initial spring clean-up with fresh mulch, and fall clean-up

Rose Package

2 visits a month for the first couple of months when weeds are at their worst, then we shift to 1 visit a month.

Lilac Package

One visit a month to help keep the weeds out of your landscape beds.

Daylily Package

Four visits throughout the year which include; Spring Clean-up, Fall Clean-up, and two additional visits in June & August

Pruning

Skillful pruning in the spring and fall of plants and shrubs

Plant Care

3 routine applications designed to feed plants in the landscape as well as pre-emergent to keep weeds at bay between detail visits. Insecticide will be applied to ornamental shrubs and perennials for common pests such as Japanese Beetles.

** This Program is an add-on to any of our Landscaping Bed Maintenance Packages but is not sold separately*

Fall Bed Cleanup

Final bed maintenance visit to clean up fall debris and cut back appropriate perennials before winter.
